In the article titled "Therapeutic Efficacy of Video Feedback in Cognitive-Behavioral Psychotherapy of Social Anxiety Disorder" by Eskiuyurt et al., published in Journal of Cognitive-Behavioral Psychotherapy and Research, 2023; Volume 12, Issue 1, the Method section did not include a clear description of the study type or sufficient detail on the data collection process. To address this and provide clarification, the following correction has been made to the Method section:

Corrected text:

Method

This study was a retrospective study. In this study, a retrospective document analysis included file data and video recording data of individuals who received individual cognitive-behavioral psychotherapy at a single center between July 2019 and March 2020. Ethical approval was obtained from the Ankara Yıldırım Beyazıt University Clinical Research Ethics Committee (No: 12, Date: 15.03.2021). After receiving the approval of the ethics committee, informed consent was obtained from the individuals who received individual cognitive-behavioral psychotherapy to use their data for scientific purposes.

We apologize to our readers for this oversight.
